Day 5: Witnessing the Great Luxor Eclipse. Sail to Edfu.

Today promises to be an extraordinary highlight of your journey, a day centred around one of nature's most awe-inspiring spectacles: a total solar eclipse. On this date, Luxor finds itself uniquely positioned as a prime gateway to witness an exceptionally long totality, occurring just outside the city limits.

The morning will begin with palpable excitement and anticipation. After breakfast, preparations will be made to travel to a carefully selected viewing site in Luxor, and you will be provided with a packed lunch for the day. This location has been chosen to ensure the best possible, unobstructed view of the sky, placing you directly within the path of totality for the maximum duration possible in this region – predicted to be over an incredible six minutes!

As the morning progresses, the celestial drama will begin to unfold. You will witness the Moon starting its slow passage across the face of the Sun, taking an increasingly large 'bite' out of it. You will be provided with special eclipse viewing glasses, essential for protecting your eyes during these partial phases. Observe the subtle, yet increasingly noticeable, changes in the quality of light; colours may seem sharper, shadows strangely defined, and the ambient temperature might begin a slight, perceptible dip even before the main event.

Then, in the moments leading up to totality, the sky will dramatically darken. You might witness the phenomenon of shadow bands rippling across the landscape. As the last sliver of the Sun vanishes behind the Moon, the world will transform. Day will plunge into an eerie, deep twilight. Remove your viewing glasses only when totality begins, and prepare to be mesmerised.

For over six breathtaking minutes – an unusually long duration for a total eclipse – you will stand under a sky unlike any other. The Sun's magnificent outer atmosphere, the ethereal corona, will blaze into view, streaming outwards around the black silhouette of the Moon. Brighter stars and planets may become visible in the darkened sky. Look towards the horizon, and you might see colours reminiscent of a 360-degree sunset. Experience the distinct drop in temperature and listen to the potential reactions of wildlife or the hushed awe of your fellow observers. It is a truly multi-sensory experience, standing in the Moon's shadow.

Just as suddenly as it began, the end of totality will approach. A brilliant burst of light, known as the 'diamond ring effect', will signal the Sun's reappearance, requiring you to immediately use your eclipse glasses again. Daylight will swiftly return, the temperature will climb, and the partial phases will proceed in reverse as the Moon gradually moves away from the Sun.

Reflecting on this profound experience, perhaps contemplating how the ancient Egyptians themselves might have reacted to such an event amidst their monumental temples, will add another layer to the day.

While the precise timings and logistical details for accessing the prime viewing location will be finalised and communicated closer to August 2027, rest assured that every arrangement will be made to guarantee you are in an optimal position, complete with necessary viewing equipment and refreshments, to safely witness the full, spellbinding totality of this historic solar eclipse near Luxor.

After witnessing the Solar Eclipse, we'll return to our cruise boat and sail south to Edfu.

OVERNIGHT: Royal Signature Nile Cruise

MEALS: Breakfast, Lunch, Dinner

EXTRAS:

Day 6: Visit Edfu Temple and cruise to Aswan

After a leisurely breakfast on board, we'll disembark and head to the nearby Temple of Edfu. This remarkably well-preserved temple, dedicated to the falcon-headed god Horus, is a stunning example of Ptolemaic architecture. As you wander through its impressive courtyards, you'll be transported back in time, imagining the processions of priests and pharaohs that once graced these halls. Admire the intricate reliefs depicting scenes of Horus's mythology, and learn about the temple's important role in ancient Egyptian religious practices.

Back on board our comfortable cruise ship, we'll continue our journey up the Nile towards Aswan, soaking in the ever-changing scenery. The pace of life along the riverbanks unfolds at a slower pace here, offering a captivating glimpse into traditional rural life in Egypt. Watch as farmers tend their fields using age-old methods, fishermen cast their nets into the flowing waters, and children play along the shore. It's a timeless scene that speaks to the enduring connection between the Egyptian people and the Nile River.

As we cruise, why not take some time for yourself to relax and unwind? Head to the sundeck and enjoy a refreshing dip in the plunge pool, perhaps with a cool drink in hand. Or simply find a comfortable spot to lounge in the sun with a good book, letting the gentle rocking of the boat and the warm breeze lull you into a state of pure tranquility.

Our cruise continues southward towards Aswan, the historic gateway to Nubia. Enjoy the remaining daylight hours out on deck, watching the sun cast long shadows over the river and the desert landscape as we approach this vibrant city. Perhaps you'll spot traditional felucca sailboats gliding along the water, or catch sight of a Nubian village with its brightly painted houses.

Day 7: Abu Simbel option. Sail the Nile on a traditional Felucca. Visit Philae Temple & Aswan Dam

This morning, you have the incredible opportunity to embark on an optional excursion to the awe-inspiring Abu Simbel, a UNESCO World Heritage Site that stands as a testament to the grandeur of ancient Egypt. We'll depart before dawn, making our way through the desert landscape. Our goal is to arrive in time to witness the magical moment when the rising sun illuminates the facade of the temples, casting a golden glow on the colossal statues of Ramses II. It's a truly unforgettable experience that captures the mystique and majesty of this ancient wonder. Please note that if you choose to visit Abu Simbel, you will not participate in the Felucca sailboat trip which takes place this morning.

If you choose to remain in Aswan, we'll step back in time and experience the magic of the Nile River firsthand with a leisurely sail on a traditional Felucca sailboat. Imagine yourself gliding along the legendary waters, the gentle breeze filling the sails as you soak in the stunning scenery of Aswan from a unique perspective. It's the perfect way to unwind and connect with the soul of Egypt before continuing our explorations.

Our afternoon tour in Aswan takes us to the enchanting island temple complex of Philae, dedicated to the goddess Isis. We'll journey by boat to this picturesque island, where the temple complex, with its graceful columns and intricate carvings, seems to rise organically from the water. Philae remains one of Egypt's most romantic and picturesque sites, its beauty enhanced by its remarkable history. The entire complex was carefully dismantled and relocated to its current location following the construction of the Aswan High Dam, ensuring its preservation for generations to come.

Speaking of the dam, we'll also pay a visit to the impressive Aswan High Dam, a monumental feat of engineering that harnessed the power of the Nile and created Lake Nasser, one of the world's largest man-made lakes. We'll learn about the dam's construction and its impact on Egypt, both positive and negative, gaining a deeper understanding of this country's complex relationship with its lifeline, the Nile River.

The Nile Cruise schedules and shore excursions may also be amended slightly to fit around the eclipse. All excursions are provided by own Egyptologist guides and transport - not joining the large boat operated groups. We have confirmed allocations at the hotel and cruise boat listed, but owing to the unprecedented demand anticipated for these dates, we may also use some alternative hotels and boats of an equivalent standard should the need arise.

If time allows you can tour inside Fort Qaitbey and we may also visit the Montazah Palace gardens. Lunch at a seafood restaurant is included. Wadi Rayan day trip (Valley of the Whales)

Min numbers: 1

This tour provides a great contrast to the Pharaonic sites you have visited on the rest of your tour. We leave Cairo and head to the Fayoum region where we head for the Wadi Rayan Protected Area, which surrounds a fresh-water lake in the middle of the desert, filled by the remaining irrigation water from the Fayoum area. There are several waterfalls here (popular in Egyptian pop music videos), and a bird hide which gives good views of the lakes birdlife, particularly in the winter months when the lake is an important stop for migrating water-birds. We also visit the Springs Oasis area, a rare example of an uninhabited Saharan oasis, and host to many different plants and animals, including Dorcas Gazelle, Ruppell's Sand Fox and Fennec Fox. Before lunch, we'll make a stop in the sand dunes surrounding Wadi Rayan to have a go at Sandboarding. After a stop for a packed lunch, we then drive into the stunning desert & mountain scenery of Wadi Hitan (Valley of the Whales). This World Heritage Site is accepted as the most significant site in the world to demonstrate the evolution of whales, and we take a 2-3km walk here to see several specimens of fossilised whales of different types sitting on the surface of the sand, as well as fossilised mangroves and the remains of crab holes.

This tour requires a full free day in Cairo, but can also be arranged straight after you arrive back in Cairo from Luxor/Aswan from the overnight sleeper train. We can also arrange it on any tour if you add extra days before and after your main tour. Prices shown are based on 2 or more people travelling, with an additional supplement due for solo travellers.

Price includes lunch whilst in Wadi Hitan and entrance fees.

Abu Simbel overland

Min numbers: 2

The temples built by Ramses II at Abu Simbel are one of Egypt's highlights, and have a fascinating story behind them to go with their impressive size. When Lake Nasser was flooded, the final water level was going to submerge several temples, the most important of which being Abu Simbel. The temple was therefore dismantled completely and rebuilt further up the hillside where it sits today. The temple stands today as a testament to Ramses II and the great building prowess of the ancient Egyptians, as well as to modern engineering. We depart Aswan very early in the morning (around 4am), with the aim of getting to Abu Simbel to see the temples in the light of the rising sun. We then have a guided tour with one of our Egyptologists and some free time before we drive back to Aswan (approx. 3 1/2 hours drive each way, with around 2 hours at the temples). The tour itinerary is designed so you will not miss any other activities if you choose this option.

Note - we choose the overland route to get to Abu Simbel as the flight times there are unreliable and the journey using the flight is much more segmented (you get more rest on the coach), not to mention it is much more expensive to fly.

Entrance fees to the site (approx. US\$10, 50% for children) are not included in the option price and should be paid locally . A minimum of 2 people is required to operate this option.

1. Transport

Our trips feature a mix of different transport options. We want you to feel like you're really experiencing the country you're travelling through, but at the same time we want you to finish journeys refreshed enough to enjoy the next stage of the tour. In Egypt we do not use any public tourist buses or overnight coach journeys as we know that people don't sleep on board and end up very tired for the following few days. All the vehicles we use are air-conditioned, many are fitted with speed limiters, and all are inspected and checked daily. Some 4WD vehicles used on desert safari options may not always have air conditioning where they are only used for short periods.

This tour also avoids any overnight train journeys, featuring domestic flights with Egypt Air between Cairo-Luxor and Aswan-Cairo.

Nile cruise boat itineraries are subject to alterations depending on local conditions at the time of travel. Some sailing may be done after dark. Boats may moor up alongside each other at night, requiring you to cross through other boats to reach the shore. On Christmas Eve and New Year's Eve the cruise boats normally run a special Gala Dinner. The cost of this is normally compulsory, whether you attend or not, and is not included in our group tour prices, and will be added to bookings when we get the final prices from the cruise boats (budget around USD100 to USD180 per person).

2. Total Solar Eclipse 2027

On the day of the solar eclipse, transport will be provided to a designated viewing location in Luxor. Facilities at this site may be limited and it will be hot, so we recommend bringing a day pack with essentials such as ample water, snacks, suncream, a hat, and perhaps an umbrella for extra shade. To ensure safe viewing, we will supply all group members with certified eclipse glasses. A packed lunch will also be provided.

Please note that whilst the itinerary and accommodations detailed represent our current plans, the significant popularity of this event may lead the Egyptian authorities to implement specific controls and arrangements in Luxor over the eclipse days. The exact arrangements for Eclipse Day will therefore be finalised closer to departure (eg. whether we view it from the grounds of Karnak temple, from our boat on the Nile, or from some hotel gardens for example). The Nile Cruise schedules and shore excursions may also be amended slightly to fit around the eclipse. All excursions are provided by our own Egyptologist guides and transport - not joining the large boat operated groups. We have confirmed allocations at the hotel and cruise boat listed, but owing to the unprecedented demand anticipated for these dates, we may also use some alternative hotels and boats of an equivalent standard should the need arise.

3. Dates & Prices

Due to exceptional demand, accommodations have very limited availability around these dates, we will therefore only be operating 1 group departure. We may also be able to assist with a limited number of private tours - contact us for details.
